A F F I D A V I T

1.

My name is William Anthony Hunt and I am 40 years old.

2.

I am a resident of Calhoun, Gordon County, Georgia.

3.

I have known M. Kelly Jones for approximately 13 years.

4.

Kelly Jones informed me of a product that he had designed called an "Advance Notification System" in [REDACTED].

5.

The product he described to me involved a computer on a vehicle which would communicate via cellular telephone with timely information to a business or residential telephone prior to the vehicle's arrival.

6.

Kelly Jones discussed with me why he initially became interested in this area.

7.

Kelly Jones indicated to me that the idea for this product originated from a personal experience observing school-age children waiting for their school bus to arrive in the rain for a prolonged period of time prior to being picked up.

8.

Kelly Jones expressed his concern about confidentiality, and to the best of my knowledge his intention at this point was to form an entity which would fund, manage, and properly market this product as a business.

9.

Kelly Jones and I met approximately six times regarding his product idea and the possibility of introducing him to potential investors.

10.

In March of 1989 I introduced Kelly to Steve White. The meeting took place in Cartersville for the purpose of gaining Steve's support and advice on how to pursue getting the product to market and to protect it through the patent process.

11.

I discussed Kelly's invention with Gena B. Payne in [redacted] of [redacted], because I was impressed with the invention and had hopes for Kelly's success with it. Gena and I worked together at the time at ProMark in Rome, GA.

12.

On [redacted], I set up a meeting at Kelly's request between him, Gena, myself, and John Ross. At that time, John Ross presented Kelly to be the inventor, and himself to be helping Kelly raise funding to begin a business around Kelly's "Advance Notification System".

13.

Further, this Deponent sayeth not.
